In Search of the Friendly Islands by Kalafi Moala

"A master storyteller's challenging vision."

– J. Latu, Pacific Media Centre

"Moala's book is more than a reality check for those who see Tongan democracy as an end in itself."

– G. Cummings, NZ *Herald*

"Reading his book, one can imagine him seated on the floor in a circle around the tanoa talking the same way as he writes, connecting the big issues to daily life."

– Dr. Ian Campbell, University of the South Pacific
